

Marine Environmental Education Foundation

**Education for cleaner
waters for the boating
public**

Our purpose

Create and present educational programs which will result in cleaner waters for the boating public.

Who we are

- ⌘ Incorporated in RI as a national charitable foundation in 1994
- ⌘ Brings together national specialists to develop and deliver education programs and research on marine environmental issues
- ⌘ Board of Directors represent a broad consortium of academia, government agencies, marine trade associations, boater organizations, and environmental groups

Programs and services

- ⌘ Bibliography of National Clean Boating and Clean Marina Websites
- ⌘ National Clean Boating Campaign
- ⌘ Training and seminars
 - ☑ In-service training course 'Managing Marinas: Merging Economics & Environment'
- ⌘ Research and Studies
- ⌘ National Workshops and Conferences

National Clean Marina Workshop

September 25-27, 2002
Mystic, Connecticut

- ⌘ Produce a national understanding for designing and delivering clean marina programs
- ⌘ Build from current state clean marina programs experience
- ⌘ Based on the national non-point source pollution guidance for marinas and recreational boating facilities

Clean Marina “How-to”

Focal topics for analysis

- Understanding the different program types: The range of regulatory to voluntary
- Core principles and type-specific principles for process
- Selecting which type of program is best for a specific place
- Specific strategies, tools and techniques
- Methods that encourage the application and replication of clean marina programs
- catalyze and grow the existing network
